

The Park at Erie and Ferry

Erie-Ferry Park is one of the newest parks in Lafayette. It is designed as a neighborhood park that will serve Stockton Crossing, Perrin, and Historic Jefferson Neighborhoods.

The park features a sheltered pavilion with benches and picnic area placed at the heart of a rolling landscape. There is a path traversing the park that is lined with sitting areas, and a pet friendly water fountain. North of the central pavilion is a small playground for children. This park is a great new places for local residents to enjoy. Access to the park is enjoyed city-wide through CityBus service, available within feet of the park.

The park is near the downtown's Arts and Market District, only a few blocks to the southwest.
